

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934 FOR THE QUARTERLY PERIOD ENDED September 30, 2013.

Commission file number: 0-23336

AROTECH CORPORTATION

(Exact name of registrant as specified in its charter)

1229 Oak Valley Drive, Ann Arbor, Michigan

(Address of principal executive offices)

48108

(Zip Code)

(800) 281-0356

(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer:

Accelerated filer:

Non-accelerated filer:

Smaller reporting company:

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares outstanding of the issuer's common stock as of November 12, 2013 was 19,518,124.

The accompanying notes are an integral part of the Interim Condensed Consolidated Financial Statements.

NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1: BASIS OF PRESENTATION

a. Company:

Arotech Corporation (“Arotech”) and its wholly-owned subsidiaries (the “Company”) provide defense and security products for the military, law enforcement and homeland security markets, including advanced zinc-air and lithium batteries and chargers, and multimedia interactive simulators/trainers. The Company operates primarily through its wholly-owned subsidiaries FAAC Incorporated (“FAAC”), based in Ann Arbor, Michigan with locations in Royal Oak, Michigan and Orlando, Florida; Electric Fuel Battery Corporation (“EFB”), based in Auburn, Alabama; and Epsilon-Electric Fuel Ltd. (“Epsilon-EFL”), based in Dimona, Israel with a location in Beit Shemesh, Israel. EFB and Epsilon-EFL form the Company’s Battery and Power Systems Division. IES Interactive Training and Realtime Technologies were merged with FAAC in 2007 and 2010, respectively, to create Arotech’s Training and Simulation Division. Pursuant to a management decision in the fourth quarter of 2011 and sale in 2012, the Company’s Armor Division, consisting of M.D.T. Protective Industries, Ltd., based in Lod, Israel, and MDT Armor Corporation, based in Auburn, Alabama, along with the trade name of Armour of America Incorporated, are reflected as discontinued operations for all periods presented.

b. Basis of presentation:

The accompanying interim condensed consolidated financial statements have been prepared by Arotech Corporation in accordance with generally accepted accounting principles for interim financial information, with the instructions to Form 10-Q and with Article 10 of Regulation S-X, and include the accounts of Arotech Corporation and its subsidiaries. Certain information and footnote disclosures, normally included in complete financial statements prepared in accordance with generally accepted accounting principles, have been condensed or omitted. In the opinion of the Company, the unaudited financial statements reflect all adjustments (consisting only of normal recurring adjustments) necessary for a fair presentation of its financial position at September 30, 2013, its operating results for the nine- and three-month periods ended September 30, 2013 and 2012, and its cash flows for the nine-month period ended September 30, 2013 and 2012.

The results of operations for the nine and three months ended September 30, 2013 are not necessarily indicative of results that may be expected for any other interim period or for the full fiscal year ending December 31, 2013.

The balance sheet at December 31, 2012 has been derived from the audited financial statements at that date but does not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. These condensed consolidated financial statements should be read in conjunction with the audited financial statements included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2012, as amended.

c. Accounting for stock-based compensation:

For the nine months ended September 30, 2013 and 2012 the compensation expense recorded related to restricted stock units and restricted shares was \$394,135 and \$171,001, respectively. The remaining total compensation cost related to share awards not yet recognized in the income statement as of September 30, 2013 was \$260,375, all of which was for restricted stock units and restricted shares that vest on longevity rather than performance. The weighted average period over which this compensation cost is expected to be recognized is approximately one and one-half years. Income tax expense was not impacted since the Company is in a net operating loss position. There were no new stock options issued in the first nine months of 2013 and no stock options were exercised in the first nine months of 2013.

d. Reclassification:

Certain comparative data in these financial statements may have been reclassified to conform to the current year’s presentation.

e. Anti-dilutive shares for EPS calculation

All outstanding stock options and contingent, non-vested restricted stock have been excluded from the calculation of the basic/diluted net income/loss per common share because all such securities are anti-dilutive for the periods presented and the Company has excluded any restricted stock or restricted stock units that will never vest under the current program. The total weighted average number of shares related to the outstanding options and non-vested restricted stock excluded from the calculations of diluted net income (loss) per share for the nine-month periods ended September 30, 2013 and 2012 was 611,700 and 602,740, respectively.

f. Discontinued operations

In December 2011, the Company's Board of Directors approved management's plan to sell the Armor Division. On March 8, 2012, the Company signed a non-binding letter of intent to sell the division to an Israeli public company. The sale of the assets was completed in June 2012 at a cash purchase price of \$50,000. Unless otherwise indicated, discontinued operations are not included in the Company's reported results.

Unless otherwise noted, amounts and disclosures throughout the Notes to Consolidated Financial Statements relate to the Company's continuing operations. The assets and liabilities of the discontinued operation after impairment and the revenues and expenses of the discontinued operation are shown below.

ASSETS AND LIABILITIES – DISCONTINUED	September 30, 2013	December 31, 2012

Income tax expense	1,000	
Net loss	<u>\$ (87,278)</u>	<u>\$ (1,506,353)</u>

NOTE 2: INVENTORIES

Inventories are stated at the lower of cost or market value. Cost is determined using the average cost method or the FIFO method. The Company periodically evaluates the quantities on hand relative to current and historical selling prices and historical and projected sales volume. Based on these evaluations, provisions are made in each period to write down inventory to its net realizable value. Inventory write-offs are provided to cover risks arising from slow-moving items, technological obsolescence, excess inventories, and for market prices lower than cost. Inventories increased from December 31, 2012, \$505,816 in the Training and Simulation Division and \$3,663 in the Battery Division, for the products required to fulfill the current backlog. Inventories are composed of the following:

	September 30,	December 31,
	2013	2012
	(Unaudited)	(Audited)
Raw and packaging materials	\$ 7,868,325	\$ 7,455,426
Work in progress	552,482	363,415
Finished products	<u>2,122,197</u>	<u>2,214,684</u>
Total:	<u>\$ 10,543,004</u>	<u>\$ 10,033,525</u>

NOTE 3: IMPACT OF RECENTLY ISSUED ACCOUNTING STANDARDS

For information about previous new accounting pronouncements and the potential impact on the Company's Consolidated Financial Statements, see Note 2 of the Notes to Consolidated Financial Statements in the Company's 2012 Form 10-K, as amended.

NOTE 4: SEGMENT INFORMATION

a. The Company and its subsidiaries operate primarily in two continuing business segments and follow the requirements of FASB ASC 280-10. Additionally, the two segments are also treated by the Company as reporting units for goodwill purposes under FASB ASC 350-20-35. The goodwill amounts associated with each of these reporting units was determined and valued when the specific businesses in the reportable segment were purchased.

The Company's reportable operating segments have been determined in accordance with the Company's internal management structure, which is organized based on operating activities. The accounting policies of the operating segments are the same as those used by the Company in the preparation of its annual financial statements. The Company evaluates performance based upon two primary factors, one is the segment's operating income and the other is the segment's contribution to the Company's future strategic growth.

b. The following is information about reported segment revenues, income (losses) and total assets for the nine and three months ended September 30, 2013 and 2012:

	Training and Simulation Division	Battery and Power Systems Division	Corporate Expenses	Discontinued	Total Company

(1) Includes depreciation of property and equipment and amortization expenses of intangible assets.

(2) Including, *inter alia*, sales and marketing, general and administrative.

(3) Out of those amounts, goodwill in the Company's Training and Simulation and Battery and Power Systems Divisions totaled \$24,435,641 and \$6,466,161, respectively, as of September 30, 2013 and \$24,435,641 and \$5,846,322, respectively, as of September 30, 2012.

NOTE 5: FAIR VALUE MEASUREMENT

The carrying value of short term assets and liabilities in the accompanying condensed consolidated balance sheets for cash and cash equivalents, restricted collateral deposits, trade receivables, unbilled receivables, inventories, prepaid and other assets, trade payables, accrued expenses, deferred revenues and other liabilities as of September 30, 2013 and December 31, 2012, approximate fair value because of the short maturity of these instruments. The carrying amounts of long term debt approximates the estimated fair values at September 30, 2013, based upon the Company's ability to acquire similar debt at similar maturities

NOTE 6: COMMON STOCK REPURCHASE PROGRAM

In February 2009, the Company's Board of Directors authorized the repurchase in the open market or in privately negotiated transactions of up to \$1.0 million of the Company's common stock. Through September 30, 2013, the Company repurchased 638,611 shares for a total of \$869,931. The repurchase program is subject to management's discretion. During 2013 no activity has occurred.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This report contains forward-looking statements made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These statements involve inherent risks and uncertainties. When used in this discussion, the words "believes," "anticipated," "expects," "estimates" and similar expressions are intended to identify such forward-looking statements. Such statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those projected. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. We undertake no obligation to publicly release the result of any revisions to these forward-looking statements that may be made to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors including, but not limited to, those set forth elsewhere in this report. Please see "Risk Factors" in our Annual Report on Form 10-K, as amended and in our other filings with the Securities and Exchange Commission.

Arotech™ is a trademark and Electric Fuel® is a registered trademark of Arotech Corporation. All company and product names mentioned may be trademarks or registered trademarks of their respective holders. Unless the context requires otherwise, all references to us refer collectively to Arotech Corporation and its subsidiaries.

We make available through our internet website free of charge our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, amendments to such reports and other filings made by us with the SEC, as soon as practicable after we electronically file such reports and filings with the SEC. Our website address is www.arotech.com. The information contained in this website is not incorporated by reference in this report.

The following discussion and analysis should be read in conjunction with the interim financial statements and notes thereto appearing elsewhere in this Quarterly Report. We have rounded amounts reported here to the nearest thousand, unless such amounts are more than 1.0 million, in which event we have rounded such amounts to the nearest hundred thousand.

Executive Summary

We are a defense and security products and services company, engaged in two business areas: interactive simulation for military, law enforcement and commercial markets; and batteries and charging systems for the military. We operate in two business units:

- we develop, manufacture and market advanced high-tech multimedia and interactive digital solutions for use-of-force training and driving training of military, law enforcement, security and other personnel (our **Training and Simulation Division**); and
- we manufacture and sell lithium and Zinc-Air batteries for defense and security products, including our Soldier Wearable Integrated Power Equipment System (SWIPES)™ power hubs, and other military applications (our **Battery and Power Systems Division**).

Between 2002 and December 2011, we were also engaged in the production of armored vehicles and aviation armor, through our Armor Division. In December 2011, our Board of Directors approved management's plan to sell our Armor Division in order to focus on the more profitable and growth-oriented aspects of our business. We completed the sale of our Armor Division in June 2012.

Overview of Results of Operations

Acquisitions

In the acquisition of subsidiaries, part of the purchase price is allocated to intangible assets and goodwill. Amortization of definite-lived intangible assets related to acquisition of subsidiaries is recorded based on the estimated expected life of the assets. Accordingly, for a period of time following an acquisition, we incur a non-cash charge related to amortization of definite-lived intangible assets in the amount of a fraction (based on the useful life of the definite-lived intangible assets) of the amount recorded as intangible assets. Such amortization charges continued in the first nine months of 2013. We are required to review long-lived intangible assets and goodwill for impairment at least annually or whenever events or changes in circumstances indicate that carrying amount of the assets may not be recoverable. If we determine, through the impairment review process, that the carrying amount of these assets has been impaired, we must record the impairment charge in our statement of operations.

We incurred non-cash charges for amortization of intangible assets in the first nine months of 2013 and 2012 in the amount of \$821,097 and \$893,743, respectively.

Restricted Shares, Restricted Stock Units and Options

In accordance with FASB ASC 505-50, we incurred, for the nine months ended September 30, 2013 and 2012, compensation expense related to restricted stock units and restricted shares of approximately \$394,000 and \$171,000, respectively. Our directors received their annual restricted stock grants on April 3, 2013 in accordance with the terms of the directors' stock compensation plan.

Overview of Operating Performance and Backlog

Overall, our pre-tax income from continuing operations before income tax expense for the nine months ended September 30, 2013 was \$3.6 million on revenues of \$67.6 million, compared to a loss of \$1.4 million on revenues of \$57.9 million in the nine months ended September 30, 2012. As of September 30, 2013, our overall backlog totaled \$74.4 million, compared to \$90.0 million at the end of the third quarter of 2012.

In our Training and Simulation Division, revenues increased from approximately \$43.8 million in the first nine months of 2012 to \$48.1 million in the first nine months of 2013. As of September 30, 2013, our backlog for our Training and Simulation Division totaled \$58.9 million, compared to \$78.5 million in the third quarter of 2012.

In our Battery and Power Systems Division, revenues increased from approximately \$14.1 million in the first nine months of 2012 to approximately \$19.5 million in the first nine months of 2013. As of September 30, 2013, our backlog for our Battery and Power Systems Division totaled \$15.5 million, compared to \$11.5 million in the third quarter of 2012.

The table below details the percentage of total recognized revenue by type of arrangement for the nine months ended September 30, 2013 and 2012:

Type of Revenue	Nine months ended September 30,	
	2013	2012
Sale of products	95.4%	97.0%
Maintenance and support agreements	3.1%	2.8%
Long term research and development contracts	1.5%	0.2%
Total	<u>100.0%</u>	<u>100.0%</u>

Common Stock Repurchase Program

In February of 2009, we authorized the repurchase in the open market or in privately negotiated transactions of up to \$1.0 million of our common stock. Through September 30, 2013, we repurchased 638,611 shares for a total of \$869,931. The repurchase program is subject to the discretion of our management. During 2013, no activity has occurred.

Common Stock Offering

In September 2013, we sold an aggregate of 3,428,571 shares of our common stock in a public offering for an aggregate of \$6.0 million (before underwriting discounts and commissions and expenses of the offering).

In October 2013, we sold an additional 514,285 shares in this public offering for an aggregate of \$900,000 (before underwriting discounts and commissions and expenses of the offering).

Casualty Loss

In September of 2013, we sustained a personal property loss at our Training and Simulation Division's leased Royal Oak, Michigan location as a result of an overnight electrical fire. We are fully operational in a temporary near-by location. All intellectual property and data were fully backed up on servers at an off-site location. We carried full replacement cost insurance and business interruption coverage. Management does not anticipate any financial losses associated with this casualty other than a minor insurance policy deductible.

Property Transfer of Discontinued Operations

In September 2013, as part of the wind-down of our discontinued operations, we transferred the ownership title and mortgage associated with the discontinued Armor Division building located in Auburn, Alabama to the Corporate continuing operations of Arotech. During the third quarter of 2013, \$922,000 of debt was transferred to the Corporate Division associated with this transaction. The building is currently leased to a third party and has been listed for sale with a local real estate agent. Additionally, the carrying value of this property was written down to zero as part of the Armor Division impairment.

Functional Currency

We consider the United States dollar to be the currency of the primary economic environment in which we and EFL operate and, therefore, both we and EFL have adopted and are using the United States dollar as our functional currency. Transactions and balances originally denominated in U.S. dollars are presented at the original amounts. Gains and losses arising from non-dollar transactions and balances are included in net income.

The majority of financial transactions of Epsilon is in New Israeli Shekels ("NIS") and a substantial portion of Epsilon's costs is incurred in NIS. Management believes that the NIS is the functional currency of Epsilon. Accordingly, the financial statements of Epsilon have been translated into U.S. dollars. All balance sheet accounts have been translated using the exchange rates in effect at the balance sheet date. Statement of operations amounts have been translated using the average exchange rate for the period. The resulting translation adjustments are reported as a component of accumulated other comprehensive income/loss in stockholders' equity.

Results of Operations

Three months ended September 30, 2013, compared to the three months ended September 30, 2012.

Revenues. Revenues for the three months ended September 30, 2013 totaled \$23.2 million, compared to \$21.4 million in the third quarter of 2012, an increase of \$1.8 million, or 8.2%. In the third quarter of 2013, revenues were \$17.7 million for the Training and Simulation Division (compared to \$16.4 million in the third quarter of 2012, an increase of \$1.3 million, or 7.4%, due primarily to the Boom Operator Simulator System contract (BOSS)); and \$5.5 million for the Battery and Power Systems Division (compared to \$5.0 million in the third quarter of 2012, an increase of \$528,000, or 10.6%, due to increased sales volume in the U.S. and Israel).

Cost of revenues. Cost of revenues totaled \$16.8 million in the third quarter of 2013, compared to \$16.5 million in the third quarter of 2012, an increase of \$341,000, or 2.1% due primarily to increased revenues and improved margins. Cost of revenues were \$12.4 million for the Training and Simulation Division (compared to \$12.5 million in the third quarter of 2012, a decrease of \$118,000, or 0.9%, due primarily to improved margins; and \$4.4 million for the Battery and Power Systems Division (compared to \$4.0 million in the third quarter of 2012, an increase of \$459,000, or 11.5%, due primarily to an increase in revenue).

Research and development expenses. Research and development expenses for the third quarter of 2013 were \$808,000, compared to \$610,000 in the third quarter of 2012, an increase of \$198,000, or 32.4%, due primarily to increased spending related to new product development in both our Training and Simulation and Battery and Power Systems Division.

Selling and marketing expenses. Selling and marketing expenses for the third quarter of 2013 were \$1.2 million, compared to \$1.3 million in the third quarter of 2012, a decrease of \$26,000, or 2.1%, due to a slight decrease of expenses in our Training and Simulation Division offset by a slight increase in our Battery and Power Division.

General and administrative expenses. General and administrative expenses for the third quarter of 2013 were \$2.7 million, compared to \$2.1 million in the third quarter of 2012, an increase of \$621,000, or 30.1%, due primarily to increased expenses in our Corporate Division primarily associated with stock compensation expense and other compensation accruals, along with increases in staffing and other expenses in the Battery and Power Systems Division to facilitate the significant growth in this division.

Amortization of intangible assets. Amortization of intangible assets totaled \$271,000 in the third quarter of 2013, compared to \$292,000 in the third quarter of 2012, a decrease of \$21,000, or 7.3%, due primarily to decreased charges for fully amortized capitalized software in our Training and Simulation Division.

Financial expense, net. Financial expense totaled \$173,000 in the third quarter of 2013, compared to financial expense of \$186,000 in the third quarter of 2012, a decrease of \$13,000, due primarily to exchange rate differences.

Income taxes. We recorded \$337,000 in tax expense in the third quarter of 2013, compared to \$127,000 in tax expense in the third quarter of 2012, an increase of \$210,000, or 165.5%, mainly associated with increased profits in our Training and Simulation Division. This amount includes the required adjustment of taxes due to the deduction of goodwill “naked” credits (“naked” credits occur when deferred tax liabilities that are created by indefinite-lived assets such as goodwill cannot be used as a source of taxable income to support the realization of deferred tax assets) for U.S. federal taxes, which totaled \$150,000 in non-cash expenses in both the third quarter of 2013 and 2012.

Net income. Due to the factors cited above, we went from a net income of \$433,000 in the third quarter of 2012 to a net income of \$861,000 in the third quarter of 2013, an improvement of \$428,000.

Nine months ended September 30, 2013, compared to the nine months ended September 30, 2012.

Revenues. Revenues for the nine months ended September 30, 2013 totaled \$67.6 million, compared to \$57.9 million in the comparable period in 2012, an increase of \$9.7 million, or 16.8%. In the first nine months of 2013, revenues were \$48.1 million for the Training and Simulation Division (compared to \$43.8 million in the first nine months of 2012, an increase of \$4.3 million, or 9.8%, due primarily to several significant new contracts); and \$19.5 million for the Battery and Power Systems Division (compared to \$14.1 million in the first nine months of 2012, an increase of \$5.4 million, or 38.5%, due primarily to increased revenue in the U.S. of the SWIPES™ system along with increased revenues from other battery products).

Cost of revenues. Cost of revenues totaled \$49.7 million in the first nine months of 2013, compared to \$45.3 million in the first nine months of 2012, an increase of \$4.4 million, or 9.7%, due primarily to increased revenue in both our divisions. Cost of revenues were \$33.8 million for the Training and Simulation Division (compared to \$33.6 million in the first nine months of 2012, an increase of \$191,000, or 0.6%); and \$15.9 million for the Battery and Power Systems Division (compared to \$11.7 million in the first nine months of 2012, an increase of \$4.2 million, or 35.7%, due primarily to increased sales of the SWIPES™ system).

Research and development expenses. Research and development expenses for the first nine months of 2013 were \$1.9 million, compared to \$1.6 million in the first nine months of 2012, an increase of \$279,000, or 16.8%, due primarily to increased spending in both divisions for continuing research on new products.

Selling and marketing expenses. Selling and marketing expenses for the first nine months of 2013 were \$3.9 million, compared to \$3.9 million in the first nine months of 2012, a decrease of \$19,000, or 0.5%.

General and administrative expenses. General and administrative expenses for the first nine months of 2013 were \$7.5 million, compared to \$7.1 million in the first nine months of 2012, an increase of \$473,000, or 6.7%, due primarily to a reduction of \$751,000 in corporate consulting and legal expenses related to transactional activities offset by an increase in corporate stock compensation expense and other compensation accruals and an increase of \$633,000 in expenses in our Battery and Power Systems Division, due primarily to increased staffing and other expenses to accommodate the significant growth in this division.

Amortization of intangible assets. Amortization of intangible assets totaled \$821,000 in the first nine months of 2013, compared to \$894,000 in the first nine months of 2012, a decrease of \$73,000, or 8.1%, due primarily to decreased charges for fully amortized capitalized software in our Training and Simulation Division.

Financial expense, net. Financial expense totaled \$475,000 in the first nine months of 2013, compared to financial expense of \$565,000 in the first nine months of 2012, a decrease of \$90,000, due primarily to exchange rate differences.

Income taxes. We recorded \$766,000 in tax expense in the first nine months of 2013, compared to \$524,000 in tax expense in the first nine months of 2012, an increase of \$242,000, or 46.2%, mainly due to increased profits in our Training and Simulation Division. This amount includes the required adjustment of taxes due to the deduction of goodwill “naked” credits (“naked” credits occur when deferred tax liabilities that are created by indefinite-lived assets such as goodwill cannot be used as a source of taxable income to support the realization of deferred tax assets) for U.S. federal taxes, which totaled \$449,000, in non-cash expenses in the first nine months of 2013 and 2012.

Net income. Due to the factors cited above, we went from a net loss of \$2.0 million in the first nine months of 2012 to a net income of \$2.8 million in the first nine months of 2013, an improvement of \$4.8 million.

Liquidity and Capital Resources

As of September 30, 2013, we had \$4.9 million in cash and \$528,000 in restricted collateral deposits, as compared to December 31, 2012, when we had \$1.6 million in cash and \$186,000 in restricted collateral deposits. We have experienced fluctuations in available cash in the previous twelve months due to the funding requirements of our larger contracts. These fluctuations have not had a significant impact on our operations, due in part to the increase in our credit facility that was negotiated with our primary bank in 2013. We ended the quarter with \$9.1 million in available, unused bank lines of credit with our main bank as of September 30, 2013, under a \$15.0 million credit facility under our FAAC subsidiary, described below.

We and FAAC maintain a \$15.0 million credit facility with FAAC’s primary bank, which is secured by Arotech’s assets and the assets of our other domestic subsidiaries and guaranteed by Arotech and our other domestic subsidiaries, at a rate of LIBOR plus 375 basis points and an unused line of credit fee of 0.35%. This credit facility expires May 31, 2015. The credit agreement contains certain covenants, including minimum Earnings Before Interest, Taxes, Depreciation and Amortization (“EBITDA”), quarterly Maximum Increase in Net Advance to Affiliates of less than 90% of EBITDA and an annual Fixed Charge Coverage Ratio of not less than 1.1 to 1.0. At the end of the first nine months of 2013 and as of the filing date of this report, we met all required current covenants.

In September 2013, we sold an aggregate of 3,428,571 shares of our common stock in a public offering for an aggregate of \$6.0 million (before underwriting discounts and commissions and expenses of the offering). After the close of the quarter, we sold an additional 514,285 shares in this public offering for an aggregate of \$900,000 (before underwriting discounts and commissions and expenses of the offering) upon exercise by the underwriter of its overallotment option.

We used available funds in the nine months ended September 30, 2013 primarily for working capital, investment in fixed assets and repayment of short term debt. We purchased approximately \$1.3 million of fixed assets in the nine months ended September 30, 2013. Our net fixed assets amounted to \$4.9 million at September 30, 2013.

Net cash provided by operating activities for the nine months ended September 30, 2013 was \$6.1 million and net cash used in operating activities for the nine months ended September 30, 2012 was \$5.9 million, a change of \$12.0 million. This difference was due primarily to the profit from continuing operations along with changes in working capital. The timing of cash inflows and outflows has impacted us due to the substantial purchases of products to fulfill the contracts in the Simulation and Training Division and Battery and Power Systems Division.

Net cash used in investing activities for the nine months ended September 30, 2013 was \$1.6 million and net cash provided by investing activities for the nine months ended September 30, 2012 was \$946,000, a change of \$2.5 million. This difference was due primarily to the purchase of capital equipment and changes in restricted collateral deposits.

Net cash used in financing activities for the nine months ended September 30, 2013 was \$1.5 million and cash provided by financing activities was \$3.4 million, in 2012, a change of \$4.9 million. The change in 2013 of cash used in financing activities was due primarily to receipt of a net \$5.4 million from a public offering that we conducted in September 2013, offset by a change in short term bank credit of \$9.9 million.

As of September 30, 2013, we had approximately \$3.7 million in short-term bank debt and \$2.0 million in long-term debt outstanding. This is in comparison to \$9.8 million in short-term bank debt and \$1.9 million in long-term debt outstanding as of December 31, 2012. During the 3rd quarter of 2013, \$922,000 of debt was transferred to the Corporate Division associated with the building in Auburn, Alabama that was previously held by the discontinued Armor Division.

Subject to all of the reservations regarding “forward-looking statements” set forth above, we believe that our present cash position, anticipated cash flows from operations and lines of credit should be sufficient to satisfy our current estimated cash requirements through the next twelve months.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Interest Rate Risk

It is our policy not to enter into interest rate derivative financial instruments, except for hedging of foreign currency exposures discussed below. We do not currently have any significant interest rate exposure.

Foreign Currency Exchange Rate Risk

Since a significant part of our sales and expenses are denominated in U.S. dollars, we have experienced only minor foreign exchange gains and losses to date, and do not expect to incur significant gains and losses in 2013. Certain of our research, development and production activities are carried out by our Israeli subsidiary, Epsilon-EFL, at its facility in Beit Shemesh, and accordingly we have sales and expenses in NIS. Additionally, our Epsilon-EFL subsidiary operates primarily in NIS. However, the majority of our sales are made outside Israel in U.S. dollars, and a substantial portion of our costs are incurred in U.S. dollars. Therefore, our functional currency is the U.S. dollar.

While we conduct our business primarily in U.S. dollars, some of our agreements are denominated in foreign currencies, which could have an adverse effect on the revenues that we incur in foreign currencies. We do not hold or issue derivative financial instruments for trading or speculative purposes.

ITEM 4. CONTROLS AND PROCEDURES.

As of the end of the period covered by this report, an evaluation was carried out by the Company's management, with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that these disclosure controls and procedures were effective as of the end of the period covered by this report. In addition, no change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) occurred during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II

ITEM 1A. RISK FACTORS.

For information regarding our risk factors, please refer to Item 1A in our Annual Report on Form 10-K for the year ended December 31, 2012, as amended. We do not believe that there have been any material changes in the risk factors disclosed in the Annual Report on Form 10-K, as amended.

ITEM 5. OTHER INFORMATION.

On November 13, 2013, we amended our employment agreements with our Chairman and CEO, Robert S. Ehrlich, and our President, Steven Esses, as follows:

- To increase Mr. Ehrlich's salary from NIS 122,050 per month to 144,650 per month, an increase of NIS 22,504 (approximately \$6,373 per month).
- To provide that we must provide Mr. Ehrlich with an automobile.
- To increase Mr. Esses's salary from NIS 74,515 to NIS 97,115 per month, an increase of NIS 22,600 (approximately \$6,400) per month.

The foregoing description is qualified in its entirety by reference to the terms of the amendment agreements themselves, copies of which are filed as exhibits hereto.

ITEM 6. EXHIBITS.

The following documents are filed as exhibits to this report:

<u>Exhibit Number</u>	<u>Description</u>
10.1	Amendment letter between the Company and its subsidiary Epsilor-Electric Fuel Ltd. and Robert S. Ehrlich dated November 13, 2013

Re: Sixth Amended and Restated Employment Agreement

Dear Bob:

In connection with your Sixth Amended and Restated Employment Agreement with Arotech Corporation and Epsilor-Electric Fuel Ltd. (collectively, the "Company") effective as of May 1, 2013 (the "Agreement"), we wish to amend the Agreement in certain respects. All capitalized terms used and not otherwise defined herein shall have the meanings ascribed to such terms in the Agreement.

Notwithstanding the terms of Section 3(a) of the Agreement, your monthly base salary will be adjusted to NIS 144,554 per month, retroactive to September 1, 2013.

Additionally, we will make an automobile available to you during the term of this Agreement. Such automobile shall be of a high quality comparable to, but not less than, that of a Volvo S-80, and shall be subject to your approval, which shall not be unreasonably withheld. You will be entitled to use the automobile for your personal and business needs, so long as you do not allow anyone who would not be covered by our insurance to drive it.

In all other respects, the terms of the Agreement will govern the relationship between us.

If the foregoing is acceptable to you, kindly sign this letter in the space provided for your signature below, whereupon this letter will become a binding amendment to the Agreement.

Sincerely yours,

AROTECH CORPORATION

Re: Third Amended and Restated Employment Agreement

Dear Steven:

In connection with your Third Amended and Restated Employment Agreement with Arotech Corporation and Epsilor-Electric Fuel Ltd. (collectively, the "Company") effective as of May 1, 2013 (the "Agreement"), we wish to amend the Agreement in certain respects. All capitalized terms used and not otherwise defined herein shall have the meanings ascribed to such terms in the Agreement.

Notwithstanding the terms of Section 3(a) of the Agreement, your monthly base salary will be adjusted to NIS 97,115 per month, retroactive to September 1, 2013.

In all other respects, the terms of the Agreement will govern the relationship between us.

If the foregoing is acceptable to you, kindly sign this letter in the space provided for your signature below, whereupon this letter will become a binding amendment to the Agreement.

Sincerely yours,

CERTIFICATION

I, Robert S. Ehrlich, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Arotech Corporation;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and we have:
 - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures as of the end of the period covered by this quarterly report based on such evaluation; and
 - (d) disclosed in this quarterly report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):
 - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.
