NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1: BASIS OF PRESENTATION

a. Company:

Arotech Corporation (“Arotech” or the “Company”), and its wholly-owned subsidiaries provide defense and security products for the military, law enforcement and homeland security markets, including advanced zinc-air and lithium batteries and chargers, multimedia interactive simulators/trainers and lightweight vehicle armoring. The Company is primarily operating through its wholly-owned subsidiaries FAAC Corporation (“FAAC”), based in Ann Arbor, Michigan, and FAAC’s subsidiary Realtime Technologies, Inc. (“Realtime”), which is based in Royal Oak, Michigan; Electric Fuel Battery Corporation (“EFB”), based in Auburn, Alabama; Electric Fuel Ltd. (“EFL”), based in Beit Shemesh, Israel; Epsilon Electronic Industries, Ltd. (“Epsilon”), based in Dimona, Israel; MDT Protective Industries, Ltd. (“MDT”), based in Lod, Israel; MDT Armor Corporation (“MDT Armor”), based in Auburn, Alabama; and Armour of America, Incorporated (“AoA”), based in Auburn, Alabama.

b. Basis of presentation:

The accompanying interim condensed consolidated financial statements have been prepared by Arotech Corporation in accordance with generally accepted accounting principles for interim financial information, with the instructions to Form 10-Q and with Article 10 of Regulation S-X, and include the accounts of Arotech Corporation and its subsidiaries. Certain information and footnote disclosures, normally included in complete financial statements prepared in accordance with generally accepted accounting principles, have been condensed or omitted. In the opinion of the Company, the unaudited financial statements reflect all adjustments (consisting only of normal recurring adjustments) necessary for a fair presentation of its financial position at March 31, 2008, its operating results for the three-month periods ended March 31, 2008 and 2007, and its cash flow for the three-month periods ended March 31, 2008 and 2007.

The results of operations for the three months ended March 31, 2008 are not necessarily indicative of results that may be expected for any other interim period or for the full fiscal year ending December 31, 2008.

The balance sheet at December 31, 2007 has been derived from the audited financial statements at that date but does not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. These condensed consolidated financial statements should be read in conjunction with the audited financial statements included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2007.

c. Accounting for stock-based compensation:

For the three months ended March 31, 2008 and 2007 the compensation expense recorded related to stock options and restricted shares was \$409,555 and \$791,996, respectively, of which \$16,429 and \$53,812, respectively, was for stock options and \$393,126 and \$738,184, respectively, was for restricted shares. The remaining total compensation cost related to non-vested stock options and restricted share awards not yet recognized in the income statement as of March 31, 2008 was \$1,748,135, of which \$74,028 was for stock options and \$1,674,107 was for restricted shares. The weighted average period over which this compensation cost is expected to be

recognized is approximately 2 years. Income tax expense was not impacted since the Company is in a net operating loss position. There were no new options or restricted stock issued in the first three months of 2008 and no options were exercised in the first three months of 2008.

d. Reclassification:

Certain comparative data in these financial statements have been reclassified to conform with the current year's presentation.

e. Anti-dilutive shares for EPS calculation

All outstanding stock options, non-vested restricted stock and warrants have been excluded from the calculation of the diluted net loss per common share because all such securities are anti-dilutive for the periods presented. The total weighted average number of shares related to the outstanding options, restricted stock and warrants excluded from the calculations of diluted net loss per share was 1,481,463.

NOTE 2: INVENTORIES

Inventories are stated at the lower of cost or market value. Cost is determined using the average cost method or the FIFO method. The Company periodically evaluates the quantities on hand relative to current and historical selling prices and historical and projected sales volume. Based on these evaluations, provisions are made in each period to write down inventory to its net realizable value. Inventory write-offs are provided to cover risks arising from slow-moving items, technological obsolescence, excess inventories, and for market prices lower than cost. Inventories are composed of the following:

	<u>March 31, 2008</u>	<u>December 31, 2007</u>
	(Unaudited)	
Raw and packaging materials	\$ 7,248,280	\$ 6,043,170
Work-in-progress	2,715,609	1,583,790
Finished goods	361,104	260,860
	<u>\$ 10,324,993</u>	<u>\$ 7,887,820</u>

NOTE 3: IMPACT OF RECENTLY ISSUED ACCOUNTING STANDARDS

In December 2007, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 141(R), *Business Combinations*, to further enhance the accounting and financial reporting related to business combinations. SFAS No. 141(R) establishes principles and requirements for how the acquirer in a business combination (1) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree, (2) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase, and (3) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS No. 141(R) applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. Therefore, the effects of the Corporation's adoption of SFAS No. 141(R) will depend upon the extent and magnitude of acquisitions after December 31, 2008.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. This Statement defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. SFAS No. 157 applies to other accounting pronouncements that require or permit fair value measurements, the Board having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. The Statement does not require any new fair value measurements and was initially effective for the Corporation beginning January 1, 2008. In February 2008, the FASB issued FASB Staff Position (FSP) FAS 157-2. FSP FAS 157-2 defers the effective date of SFAS No. 157 until January 1, 2009 for nonfinancial assets and nonfinancial liabilities except those items recognized or disclosed at fair value on an annual or more frequently recurring basis. On January 1, 2008, we adopted the provisions of SFAS No. 157 for our financial assets and liabilities. The adoption of the standard did not have a material impact on our financial statements. We elected to defer the adoption of SFAS No. 157 for our non-financial assets and liabilities until January 1, 2009. We are currently evaluating the impact that the deferred provisions of this standard will have on our financial statements.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*. This Statement permits entities to choose to measure eligible items at fair value at specified election dates. For items for which the fair value option has been elected, unrealized gains and losses are to be reported in earnings at each subsequent reporting date. The fair value option is irrevocable unless a new election date occurs, may be applied instrument by instrument, with a few exceptions, and applies only to entire instruments and not to portions of instruments. SFAS No. 159 provides an opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting. SFAS No. 159 was effective for the Corporation beginning January 1, 2008. The adoption of the standard did not have a material impact on the Company's financial statements.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements – an amendment of ARB No. 51*, to create accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS No. 160 establishes accounting and reporting standards that require (1) the ownership interest in subsidiaries held by parties other than the parent to be clearly identified and presented in the consolidated balance sheet within equity, but separate from the parent's equity, (2) the amount of consolidated net income attributable to the parent and the noncontrolling interest to be clearly identified and presented on the face of the consolidated statement of income, (3) changes in a parent's ownership interest while the parent retains its controlling financial interest in its subsidiary to be accounted for consistently, (4) when a subsidiary is deconsolidated, any retained noncontrolling equity investment in the former subsidiary to be initially measured at fair value, and (5) entities to provide sufficient disclosures that clearly identify and distinguish between the interests of the parent and the interests of the noncontrolling owners. SFAS No. 160 applies to fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008, and prohibits early adoption. Management has not completed its review of the new guidance; however, the effect of the Statement's implementation is not expected to be material to the Corporation's results of operations or financial position.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities*. SFAS No.161 requires expanded disclosures regarding the location and amounts of derivative instruments in an entity's financial statements, how derivative instruments and related hedged items are accounted for under SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, and how derivative instruments and related hedged items affect an entity's financial position, operating results and cash flows. SFAS No. 161 is effective for fiscal years beginning after November 15, 2008. Since SFAS No. 161 affects only disclosures, it is not expected to impact the Corporation's financial position or results of operations upon adoption.

NOTE 4: SEGMENT INFORMATION

a. General:

The Company and its subsidiaries operate primarily in three business segments and follow the requirements of SFAS No. 131.

The Company's reportable operating segments have been determined in accordance with the Company's internal management structure, which is organized based on operating activities. The accounting policies of the operating segments are the same as those used by the Company in the preparation of its annual financial statement. The Company evaluates performance based upon two primary factors, one is the segment's operating income and the other is the segment's contribution to the Company's future strategic growth.

b. The following is information about reported segment revenues, income (losses) and total assets for the three months ended March 31, 2008 and 2007:

	Training and Simulation	Battery and Power Systems	Armor	All Others	Total
Three months ended					
March 31, 2008					
Revenues from outside customers	\$ 7,534,597	\$ 3,107,036	\$ 2,608,943	\$ -	\$ 13,250,576

⁽¹⁾ Includes depreciation of property and equipment, amortization expenses of intangible assets and impairment of goodwill and other intangible assets.

⁽²⁾ Including, *inter alia*, sales and marketing, general and administrative and tax expenses.

⁽³⁾ Consisting of all assets.

- (4) Out of those amounts, goodwill in our Training and Simulation, Battery and Power Systems and Armor Divisions stood at \$24,424,030, \$6,437,042 and \$1,898,812, respectively, as of March 31, 2008 and \$24,235,419, \$5,413,210 and \$1,066,596, respectively, as of March 31, 2007.

NOTE 5: COMPREHENSIVE INCOME

Comprehensive income for the three months ended March 31, 2008 and 2007 is summarized below:

	<u>Three Months Ended March 31,</u>	
	<u>2008</u>	<u>2007</u>
Net loss	\$ (970,599)	\$ (1,698,242)
Foreign currency translation	942,227	84,807
Total comprehensive loss	<u>\$ (28,372)</u>	<u>\$ (1,613,435)</u>

NOTE 6: ACQUISITIONS

Purchase of the Minority Interest in MDT Israel and MDT Armor

In January 2008, the Company purchased the minority shareholder's 24.5% interest in MDT Protective Industries Ltd. ("MDT Israel") and the 12.0% interest in MDT Armor Corporation ("MDT Armor"), as well as settling all outstanding disputes regarding severance payments, in exchange for a total of \$1.0 million that was paid in cash. The purchase was treated as a step acquisition using the purchase method of accounting. The Company evaluated the purchase price and identified \$607,100 in goodwill and workforce intangibles with an indefinite life. The Company also identified \$53,400 as an intangible asset related to its customer list with a useful life of four years. The purchase price included a payment of \$241,237 to the former president of MDT Israel as compensation for a right granted to him by MDT Armor that potentially would have given him the right to receive 5% of MDT Armor's annual profit. The payment for this right was recorded as general and administrative expense in the first quarter.

Purchase of Realtime Technologies, Inc.

In February 2008 the Company's FAAC subsidiary acquired all of the outstanding stock of Realtime Technologies, Inc. (RTI), a privately-owned corporation headquartered in Royal Oak, Michigan, for a total of \$1,375,000, including \$1,250,000 in cash, \$100,000 in Company stock (54,348 shares) and approximately \$25,000 in legal fees with a 2008 earnout (maximum of \$250,000) based on 2008 net profit. RTI specializes in multi-body vehicle dynamics modeling and graphical simulation solutions. RTI's product portfolio provides FAAC with the opportunity to economically add new features to the driver training products marketed by FAAC.

RTI's operating results will be included in the Company's Training and Simulation Division as of January 1, 2008 and the effect on operations is not expected to be material.

Listed below is the purchase price allocation:

Current assets acquired, net of liabilities	\$ 433,389
Technology and Patents - 7 year life	663,000
Trademark/Trade Names - 10 year life	28,000
Customer relationships - 10 year life	62,000
Goodwill - indefinite life ⁽¹⁾	<u>188,611</u>
<u>Equity Value</u>	<u>\$ 1,375,000</u>

⁽¹⁾ The full amount of the goodwill is expected to be deductible for U.S. tax purposes.

NOTE 7:**ARBITRATION**

In connection with the Company's acquisition of AoA, the Company had a contingent earnout obligation in an amount equal to the revenues AoA realized from certain specific programs that were identified by the Company and the seller of AoA ("Seller") as appropriate targets for revenue increases. As of December 31, 2006, the Company had reduced the \$3.0 million escrow held by the Seller by approximately \$1,520,000 for a putative claim against such escrow in respect of such earnout obligation.

On March 20, 2007, the Company filed a Demand for Arbitration with the American Arbitration Association against the Seller. In February 2008, the arbitration panel issued a decision denying the Seller's counterclaims, granting the Seller's counterclaim for \$70,000 in compensation, awarding the Company the entire \$3.0 million escrow (less the \$70,000 in compensation (with simple interest but without statutory penalties)), awarding the Company \$135,000 in attorneys' fees, and interest of approximately \$325,000. This award was paid to the Company in April 2008, and the time for the Seller to move to vacate or modify this award has now expired. In the first quarter of 2008, the Company adjusted the escrow receivable to reflect the updated amount of the escrow due to the arbitration panel's decision and final resolution of the remaining legal questions.

ITEM 2.**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

This report contains forward-looking statements made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These statements involve inherent risks and uncertainties. When used in this discussion, the words "believes," "anticipated," "expects," "estimates" and similar expressions are intended to identify such forward-looking statements. Such statements are subject to certain risks and uncertainties. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. We undertake no obligation to publicly release the result of any revisions to these forward-looking statements that may be made to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors including, but not limited to, those set forth elsewhere in this report. Please see "Risk Factors," below, and in our other filings with the Securities and Exchange Commission.

All company and product names mentioned may be trademarks or registered trademarks of their respective holders. Unless the context requires otherwise, all references to us refer collectively to Arotech Corporation and its subsidiaries.

We make available through our internet website free of charge our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, amendments to such reports and other filings made by us with the SEC, as soon as practicable after we electronically file such reports and filings with the SEC. Our website address is www.arotech.com. The information contained in this website is not incorporated by reference in this report.

The following discussion and analysis should be read in conjunction with the interim financial statements and notes thereto appearing elsewhere in this Quarterly Report. We have rounded amounts reported here to the nearest thousand, unless such amounts are more than 1.0 million, in which event we have rounded such amounts to the nearest hundred thousand.

Executive Summary***Divisions and Subsidiaries***

We are a defense and security products and services company, engaged in three business areas: interactive simulation for military, law enforcement and commercial markets; batteries and charging systems for the military; and high-level armoring for military, paramilitary and commercial vehicles. We operate in three business units:

- we develop, manufacture and market advanced high-tech multimedia and interactive digital solutions for use-of-force and driving training of military, law enforcement, security and other personnel (our ***Training and Simulation Division***);

- we provide aviation armor kits and we utilize sophisticated lightweight materials and advanced engineering processes to armor vehicles (our *Armoring Division*); and
- we develop, manufacture and market primary Zinc-Air batteries, rechargeable batteries and battery chargers for defense and security products and other military applications (our *Battery and Power Systems Division*).

Recent Developments

Purchase of the Minority Interest in MDT Israel and MDT Armor

In January 2008, we purchased the minority shareholder's 24.5% interest in MDT Protective Industries, Ltd. ("MDT Israel") and the 12.0% interest in MDT Armor Corporation ("MDT Armor"), as well as settling all outstanding disputes regarding severance payments, in exchange for a total of \$1.0 million that was paid in cash. The purchase was treated as a step acquisition using the purchase method of accounting. We evaluated the purchase price and identified \$607,100 in goodwill and workforce intangibles with an indefinite life. We also identified \$53,400 as an intangible asset related to our customer list with a useful life of four years. Additionally, we eliminated the amounts recorded in the December 31, 2007 balance sheet as minority interest along with a loan receivable in the amount of \$102,167. The purchase price included a payment of \$241,237 to the former president of MDT Israel as compensation for a right granted to him by MDT Armor which potentially would have given him the right to receive 5% of MDT Israel's annual profit. The payment for this right was recorded as general and administrative expense in the first quarter.

Purchase of Realtime Technologies, Inc.

In February 2008 our FAAC subsidiary acquired all of the outstanding stock of Realtime Technologies, Inc. (RTI), a privately-owned corporation headquartered in Royal Oak, Michigan, for a total of \$1,375,000, including \$1,250,000 in cash, \$100,000 in our stock (54,348 shares) and approximately \$25,000 in legal fees with a 2008 earnout (maximum of \$250,000) based on 2008 net profit. RTI specializes in multi-body vehicle dynamics modeling and graphical simulation solutions. RTI's product portfolio provides FAAC with the opportunity to economically add new features to the driver training products marketed by FAAC.

RTI's operating results will be included in our Training and Simulation Division as of January 1, 2008 and the effect on operations is not expected to be material.

Current assets acquired, net of liabilities	\$	433,389
Technology and Patents - 7 year life		663,000
Trademark/Trade Names - 10 year life		28,000
Customer relationships - 10 year life		62,000
Goodwill - indefinite life ⁽¹⁾		188,611
<u>Equity Value</u>	<u>\$</u>	<u>1,375,000</u>

⁽¹⁾ The full amount of the goodwill is expected to be deductible for U.S. tax purposes.

AoA Arbitration

In connection with our acquisition of AoA, we had a contingent earnout obligation in an amount equal to the revenues AoA realized from certain specific programs that were identified by us and the seller of AoA ("Seller") as appropriate targets for revenue increases. As of December 31, 2006, we had reduced the \$3.0 million escrow held by the Seller by \$1,520,000 for a putative claim against such escrow in respect of such earnout obligation.

On March 20, 2007, we filed a Demand for Arbitration with the American Arbitration Association against the Seller. In our demand, we sought the return of \$3.0 million, plus interest, held in escrow by the Seller in connection with his sale of AoA to us in 2004. The Seller asserted counterclaims against us in the arbitration, alleging (i) that he is entitled to keep the \$3.0 million, (ii) that he is entitled to an additional \$3.0 million in post-sale earnout, and (iii) that he is entitled to \$70,000 in compensation (plus interest and statutory penalties) wrongfully withheld by us when we constructively terminated his employment.

In February 2008, the arbitration panel issued a decision denying the Seller's counterclaims (i) and (ii) above, granting the Seller's counterclaim for \$70,000 in compensation, awarding us the entire \$3.0 million escrow (less the \$70,000 in compensation (with simple interest but without statutory penalties)), awarding us \$135,000 in attorneys' fees, and interest of approximately \$325,000. This award was paid to us in April 2008, and the time for the Seller to move to vacate or modify this award has now expired. In the first quarter of 2008, we adjusted the escrow receivable to reflect the updated amount of the escrow due to the arbitration panel's decision and final resolution of the remaining legal questions.

Overview of Results of Operations

We incurred significant operating losses for the years ended December 31, 2007 and for the first three months of 2008. While we expect to continue to derive revenues from the sale of products that our subsidiaries manufacture and the services that they provide, there can be no assurance that we will be able to achieve or maintain profitability on a consistent basis.

A portion of our operating loss during 2007 and the first three months of 2008 arose as a result of non-cash charges. These charges were primarily related to our acquisitions, financings and issuances of restricted shares and options to employees. To the extent that we continue certain of these activities during the remainder of 2008, we would expect to continue to incur such non-cash charges in the future.

Acquisitions

In acquisition of subsidiaries, part of the purchase price is allocated to intangible assets and goodwill. Amortization of intangible assets related to acquisition of subsidiaries is recorded based on the estimated expected life of the assets. Accordingly, for a period of time following an acquisition, we incur a non-cash charge related to amortization of intangible assets in the amount of a fraction (based on the useful life of the intangible assets) of the amount recorded as intangible assets. Such amortization charges continued during 2008. We are required to review intangible assets for impairment whenever events or changes in circumstances indicate that carrying

amount of the assets may not be recoverable. If we determine, through the impairment review process, that intangible asset has been impaired, we must record the impairment charge in our statement of operations.

In the case of goodwill, the assets recorded as goodwill are not amortized; instead, we are required to perform an annual impairment review. If we determine, through the impairment review process, that goodwill has been impaired, we must record the impairment charge in our statement of operations.

As a result of the application of the above accounting rules, we incurred non-cash charges for amortization of intangible assets in the amount of \$493,000 during the first three months of 2008.

Financings and Issuances of Restricted Shares and Options

During 2006 and 2007, we issued options and restricted shares to certain of our employees along with restricted shares to our directors. These options and shares were issued as bonuses, and generally vest over a period of two or three years from the date of issuance. Relevant accounting rules provide that the aggregate amount of the difference between the purchase price of the restricted shares (in this case, generally zero) and the market price of the shares on the date of grant is taken as a general and administrative expense, amortized over the life of the period of the restriction.

As a result of the application of the above accounting rules, we incurred, for the three months ended March 31, 2008 and 2007, compensation expense related to stock options and restricted shares of approximately \$410,000 and \$792,000, respectively, of which \$16,000 and \$54,000, respectively, was for stock options and \$393,000 and \$738,000, respectively, was for restricted shares.

Overview of Operating Performance and Backlog

Overall, our net loss before minority interest earnings, earnings from affiliated company and tax expenses for the three months ended March 31, 2008 was \$735,000 on revenues of \$13.3 million, compared to a net loss of \$1.6 million on revenues of \$11.5 million during the three months ended March 31, 2007. As of March 31, 2008, our overall backlog totaled \$49.7 million.

In our Training and Simulation Division, revenues increased from approximately \$4.2 million in the first three months of 2007 to \$7.5 million in the first three months of 2008. As of March 31, 2008, our backlog for our Training and Simulation Division totaled \$19.9 million.

In our Battery and Power Systems Division, revenues increased from approximately \$2.5 million in the first three months of 2007 to approximately \$3.1 million in the first three months of 2008. As of March 31, 2008, our backlog for our Battery and Power Systems Division totaled \$12.2 million.

In our Armor Division, revenues decreased from \$4.8 million during the first three months of 2007 to \$2.6 million during the first three months of 2008. As of March 31, 2008, our backlog for our Armor Division totaled \$17.6 million.

Functional Currency

We consider the United States dollar to be the currency of the primary economic environment in which we and our Israeli subsidiary EFL operate and, therefore, both we and EFL have adopted and are using the United States dollar as our functional currency. Transactions and balances originally denominated in U.S. dollars are presented at the original amounts. Gains and losses arising from non-dollar transactions and balances are included in net income.

The majority of financial transactions of our Israeli subsidiaries MDT and Epsilon are in New Israel Shekels ("NIS") and a substantial portion of MDT's and Epsilon's costs is incurred in NIS. Management believes that the NIS is the functional currency of MDT and Epsilon. Accordingly, the financial statements of MDT and Epsilon have been translated into U.S. dollars. All balance sheet accounts have been translated using the exchange rates in effect at the balance sheet date. Statement of operations amounts have been translated using the average exchange rate for the period. The resulting translation adjustments are reported as a component of accumulated other comprehensive loss in shareholders' equity.

Results of Operations

Three months ended March 31, 2008 compared to the three months ended March 31, 2007.

Revenues. During the three months ended March 31, 2008, we (through our subsidiaries) recognized revenues as follows:

- FAAC recognized revenues from the sale of multimedia interactive simulators, interactive use-of-force training systems, and from the provision of maintenance services in connection with such systems.
- MDT, MDT Armor and AoA recognized revenues from payments under vehicle armoring contracts, for service and repair of armored vehicles, and on the sale of armoring products.
- EFB and Epsilon recognized revenues from the sale of batteries, chargers and adapters to the military, and under certain development contracts with the U.S. Army.
- EFL recognized revenues from the sale of water-activated battery (WAB) lifejacket lights.

Revenues for the three months ended March 31, 2008 totaled \$13.3 million, compared to \$11.5 million in the comparable period in 2007, an increase of \$1.8 million, or 14.9%. In the first quarter of 2008, revenues were \$7.5 million for the Training and Simulation Division (compared to \$4.2 million in the first quarter of 2007, an increase of \$3.3 million, or 78.7%, due primarily to increased sales of military vehicle simulators and use of force simulators); \$3.1 million for the Battery and Power Systems Division (compared to \$2.5 million in the first quarter of 2007, an increase of \$568,000, or 22.4%, due primarily to increased sales of our battery products at Epsilon and EFB); and \$2.6 million for the Armor Division (compared to \$4.8 million in the first quarter of 2007, a decrease of \$2.2 million, or 45.4%, due primarily to decreased revenues from MDT

and MDT Armor, mostly in respect of the completion of orders for the “David” Armored Vehicle).

Cost of revenues. Cost of revenues totaled \$10.0 million during the first quarter of 2008, compared to \$7.4 million in the first quarter of 2007, an increase of \$2.6 million, or 34.5%, due primarily to increased sales in our Training and Simulation and our Battery and Power Systems divisions along with erosion in margin in our Armor Division.

Direct expenses for our three divisions during the first quarter of 2008 were \$6.0 million for the Training and Simulation Division (compared to \$3.2 million in the first quarter of 2007, an increase of \$2.8 million, or 87.5%, due primarily to increased sales of FAAC); \$3.3 million for the Battery and Power Systems Division (compared to \$2.6 million in the first quarter of 2007, an increase of \$711,000, or 27.1%, due primarily to increased revenues); and \$2.3 million for the Armor Division (compared to \$3.9 million in the first quarter of 2007, a decrease of \$1.6 million, or 42.6%, due primarily to decreased production of the “David” Armored Vehicle).

Amortization of intangible assets. Amortization of intangible assets totaled \$493,000 in the first quarter of 2008, compared to \$455,000 in the first quarter of 2007, an increase of \$38,000, or 8.2%, due primarily to an increase in amortization of capitalized technology in our Training and Simulation Division along with an increase in identified intangibles due to the acquisition of RTI.

Research and development expenses. Research and development expenses for the first quarter of 2008 were \$607,000, compared to \$349,000 during the first quarter of 2007, an increase of \$258,000, or 73.9%. This increase was primarily attributable to increases in expenses at Epsilor and EFL for design improvements and at FAAC for expenses associated with the improvements to the Company’s simulator products.

Selling and marketing expenses. Selling and marketing expenses for the first quarter of 2008 were \$1.1 million, compared to \$1.0 million in the first quarter of 2007, an increase of \$112,000, or 10.9%. This increase was primarily attributable to the overall increase in revenues and their associated sales and marketing expenses.

General and administrative expenses. General and administrative expenses for the first quarter of 2008 were \$3.5 million, compared to \$3.7 million in the first quarter of 2007, a decrease of \$192,000, or 5.2%. This decrease was primarily attributable to a reduction in corporate stock compensation expenses compared to the previous year.

Financial expenses, net. Financial expenses totaled approximately \$190,000 in the first quarter of 2008, compared to \$124,000 in the first quarter of 2007, an increase of \$66,000, or 53.1%. The difference was due primarily to increased interest expense as a result of higher line of credit balances outstanding in 2008 compared to the previous year.

Income taxes. We and certain of our subsidiaries incurred net operating losses during the three months ended March 31, 2008 and accordingly, no provision for income taxes was recorded in this quarter. With respect to some of our subsidiaries that operated at a net profit during 2008, we were able to offset federal taxes against our accumulated loss carry forward. We recorded a

total of \$120,000 in tax expense in the first quarter of 2008, compared to \$106,000 in tax expense in the first quarter of 2007, an increase of \$14,000, or 13.2%, mainly concerning state and local taxes.

Net loss. Due to the factors cited above, net loss decreased from \$1.7 million in 2007 to \$971,000 in 2008, a decrease of \$728,000, or 42.8%.

Liquidity and Capital Resources

As of March 31, 2008, we had \$2.4 million in cash, \$162,000 in restricted collateral securities and restricted held-to-maturity securities due within one year, \$3.3 million in an escrow receivable, and \$51,000 in available-for-sale marketable securities, as compared to December 31, 2007, when we had \$3.4 million in cash, \$320,000 in restricted collateral securities, \$1.5 million in an escrow receivable and \$47,000 in available-for-sale marketable securities.

We used available funds in the three months ended March 31, 2008 primarily for sales and marketing, continued research and development expenditures, and other working capital needs. We increased our investment in fixed assets during the three months ended March 31, 2008 by \$339,000 over the investment as at December 31, 2007. Our net fixed assets amounted to \$5.2 million at quarter end, which includes a new capital lease in the first quarter in the amount of \$109,000.

Net cash provided by (used in) operating activities from continuing operations for the three months ended March 31, 2008 and 2007 was \$685,000 and \$(1.0) million, respectively, an increase of \$1.7 million. This increase in cash used was primarily the result of changes in working capital.

Net cash provided by (used in) investing activities for the three months ended March 31, 2008 and 2007 was \$(1.8) million and \$174,000, a decrease of \$2.0 million. This increase was primarily the result of the RTI acquisition and the purchase of minority interest in MDT.

Net cash provided by (used in) financing activities for the three months ended March 31, 2008 and 2007 was \$(10,000) and \$36,000, respectively.

As of March 31, 2008, we have approximately \$4.6 million in bank debt outstanding.

Subject to all of the reservations regarding “forward-looking statements” set forth above, we believe that our present cash position, anticipated cash flows from operations and lines of credit should be sufficient to satisfy our current estimated cash requirements through the remainder of the year. In this connection, we note that from time to time our working capital needs are partially dependent on our subsidiaries’ lines of credit. In the event that we are unable to continue to make use of our subsidiaries’ lines of credit for working capital on economically feasible terms, our business, operating results and financial condition could be adversely affected.

Over the long term, we need to sustain profitability, at least on a cash-flow basis, to avoid future capital requirements. Additionally, we would need to raise additional capital in order to fund any future acquisitions.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Interest Rate Risk

It is our policy not to enter into interest rate derivative financial instruments, except for hedging of foreign currency exposures discussed below. We do not currently have any significant interest rate exposure.

Foreign Currency Exchange Rate Risk

Since a significant part of our sales and expenses are denominated in U.S. dollars, we have experienced only insignificant foreign exchange gains and losses to date, and do not expect to incur significant gains and losses in 2008. Certain of our research, development and production activities are carried out by our Israeli subsidiary, EFL, at its facility in Beit Shemesh, and accordingly we have sales and expenses in NIS. Additionally, our MDT and Epsilon subsidiaries operate primarily in NIS. However, the majority of our sales are made outside Israel in U.S. dollars, and a substantial portion of our costs are incurred in U.S. dollars. Therefore, our functional currency is the U.S. dollar.

While we conduct our business primarily in U.S. dollars, some of our agreements are denominated in foreign currencies, and we occasionally hedge part of the risk of a devaluation of the U.S. dollar, which could have an adverse effect on the revenues that we incur in foreign currencies. We do not hold or issue derivative financial instruments for trading or speculative purposes

ITEM 4T. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

As of March 31, 2008, our management, including the principal executive officer and principal financial officer, evaluated our disclosure controls and procedures related to the recording, processing, summarization, and reporting of information in our periodic reports that we file with the SEC. These disclosure controls and procedures are intended to ensure that material information relating to us, including our subsidiaries, is made known to our management, including these officers, by other of our employees, and that this information is recorded, processed, summarized, evaluated, and reported, as applicable, within the time periods specified in the SEC's rules and forms. Due to the inherent limitations of control systems, not all misstatements may be detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Any system of controls and procedures, no matter how well designed and operated, can at best provide only reasonable assurance that the objective of the system are met and management necessarily is required to apply its judgment in evaluating the cost benefit relationship of possible controls and procedures. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. Our controls and procedures are intended to provide only reasonable, not absolute, assurance that the above objectives have been met.

Based on their evaluations, our principal executive officer and principal financial officer were able to conclude that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) were effective as of March 31, 2008 to ensure that the information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms.

Changes in Internal Controls Over Financial Reporting

There have been no changes in our internal control over financial reporting that occurred during our last fiscal quarter to which this Quarterly Report on Form 10-Q relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS.

Class Action Litigation

In May 2007, two purported class action complaints (the "Complaint") were filed in the United States District Court for the Eastern District of New York against us and certain of our officers and directors. These two cases were consolidated in June 2007. A similar case filed in the United States District Court for the Eastern District of Michigan in March 2007 was withdrawn by the plaintiff in June 2007. The Complaint seeks class status on behalf of all persons who purchased our securities between November 9, 2004 and November 14, 2005 (the "Period") and alleges violations by us and certain of our officers and directors of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 and Rule 10b-5 thereunder, primarily related to our acquisition of Armour of America in 2005 and certain public statements made by us with respect to our business and prospects during the Period. The Complaint also alleges that we did not have adequate systems of internal operational or financial controls, and that our financial statements and reports were not prepared in accordance with GAAP and SEC rules. The Complaint seeks an unspecified amount of damages. A lead plaintiff has been named, and the plaintiff's consolidated amended complaint was filed in September 2007. Our motion to dismiss was filed in November 2007, but a decision on our motion is not expected until mid-2008.

Although the ultimate outcome of this matter cannot be determined with certainty, we believe that the allegations stated in the Complaint are without merit and we and our officers and directors named in the Complaint intend to defend ourselves vigorously against such allegations.

NAVAIR Litigation

In December 2004, AoA filed an action in the United States Court of Federal Claims against the United States Naval Air Systems Command (NAVAIR), seeking approximately \$2.2 million in damages for NAVAIR's alleged improper termination of a contract for the design, test and manufacture of a lightweight armor replacement system for the United States Marine Corps CH-46E rotor helicopter. NAVAIR, in its answer, counterclaimed for approximately \$2.1 million in alleged procurement and administrative costs. Trial in this matter has concluded, but no decision has yet been rendered.

ITEM 1A. RISK FACTORS.

For information regarding our risk factors, please refer to Item 1A in our Annual Report on Form 10-K for the year ended December 31, 2007. We do not believe that there been any material changes in the risk factors disclosed in the Annual Report on Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

On February 12, 2008, in connection with our acquisition of Realtime Technologies, Inc. (RTI), a privately-owned corporation headquartered in Royal Oak, Michigan, we issued to the seller of RTI, as part of the purchase price for RTI, a total of 54,348 shares of our common stock.

We issued the above securities in reliance on the exemption from registration provided by Section 4(2) of the Securities Act as transactions by an issuer not involving a public offering. The issuance of these securities was without the use of an underwriter, and the shares of common stock were issued with restrictive legends permitting transfer thereof only upon registration or an exemption under the Act.

ITEM 5. OTHER INFORMATION,

Annual Shareholders Meeting

We held our 2007 annual meeting of shareholders on October 15, 2007. Our 2008 Annual Meeting of Stockholders will be held on Wednesday, August 13, 2008 commencing at 10:00 a.m., local time, at the offices of Lowenstein Sandler P.C., 1251 Avenue of the Americas, 18th Floor, New York, New York.

In light of the foregoing and in accordance with Rules 14a-5(f) and 14a-8(e)(2) under the Securities Exchange Act of 1934, as amended, we will consider stockholder proposals submitted in connection with our 2008 Annual Meeting to have been submitted in a timely fashion if such proposals are received by us at our principal offices no later than May 31, 2008. If a proposal is received after May 31, 2008, the proxies designated by the Board of Directors of the Company will have discretionary authority to vote on the proposal under circumstances consistent with the proxy rules of the Securities and Exchange Commission.

We expect to mail our Notice of Internet Availability of Proxy Materials and Notice of the 2008 Annual Meeting on or about June 30, 2008, at which date our Proxy Statement and Annual Report will be available on an Internet site to be designated in the Notice of Internet Availability of Proxy Materials. Stockholders will also be given instructions on how to elect to receive printed proxy materials by mail.

ITEM 6. EXHIBITS.

CERTIFICATION

I, Robert S. Ehrlich, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Arotech Corporation;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and we have:
 - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - (b) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures as of the end of the period covered by this quarterly report based on such evaluation; and
 - (c) disclosed in this quarterly report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):
 - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.

Dated: May 20, 2008
