**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934 FOR THE QUARTERLY PERIOD ENDED June 30, 2016.

Commission file number: 0-23336

AROTECH CORPORATION

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

95-4302784

(I.R.S. Employer
Identification No.)

1229 Oak Valley Drive, Ann Arbor, Michigan

(Address of principal executive offices)

48108

(Zip Code)

(800) 281-0356

(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer:

Accelerated filer:

Non-accelerated filer:

Smaller reporting company:

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares outstanding of the issuer's common stock as of August 5, 2016 was 26,438,224.

**Potential persons who are to respond to the collection of
information contained in this form are not required to respond
unless the form displays a currently valid OMB control number.**

The accompanying notes are an integral part of the Interim Condensed Consolidated Financial Statements.

NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1: BASIS OF PRESENTATION

a. Company:

Arotech Corporation ("Arotech") and its wholly-owned subsidiaries (the "Company") provide defense and security products for the military, law enforcement, emergency services and homeland security markets, including advanced zinc-air and lithium batteries and chargers, and multimedia interactive simulators/trainers. The Company operates primarily through its wholly-owned subsidiaries FAAC Incorporated, a Michigan corporation located in Ann Arbor, Michigan (Training and Simulation Division) with locations in Royal Oak, Michigan and Orlando, Florida; Epsilon-Electric Fuel Ltd. ("Epsilon-EFL"), an Israeli corporation located in Beit Shemesh, Israel (between Jerusalem and Tel-Aviv) in Dimona, Israel (in Israel's Negev desert area) and Sderot, Israel (near the Gaza Strip) (Power Systems Division); UEC Electronics, LLC ("UEC"), a South Carolina limited liability company located in Hanahan, South Carolina (Power Systems Division).

b. Basis of presentation:

The accompanying interim condensed consolidated financial statements have been prepared by Arotech Corporation in accordance with generally accepted accounting principles for interim financial information, with the instructions to Form 10-Q and with Article 10 of Regulation S-X, and include the accounts of Arotech Corporation and its subsidiaries. Certain information and footnote disclosures, normally included in complete financial statements prepared in accordance with generally accepted accounting principles, have been condensed or omitted. In the opinion of the Company, the unaudited financial statements reflect all adjustments (consisting only of normal recurring adjustments) necessary for a fair presentation of its financial position at June 30, 2016, its operating results for the six and three month periods ended June 30, 2016 and 2015, and its cash flows for the six month periods ended June 30, 2016 and 2015.

The results of operations for the six and three months ended June 30, 2016 are not necessarily indicative of results that may be expected for any other interim period or for the full fiscal year ending December 31, 2016.

The balance sheet at December 31, 2015 has been derived from the audited financial statements at that date but does not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. These condensed consolidated financial statements should be read in conjunction with the audited financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015.

c. Goodwill and other long-lived assets:

Goodwill and indefinite-lived intangible assets are tested for impairment at least annually and between annual tests in certain circumstances, and written down when impaired. Goodwill is tested for impairment by comparing the fair value of the Company's reporting units with their carrying value. The Training and Simulation and the Power Systems reporting units have goodwill.

As of its last annual impairment test as of December 31, 2015, the Company determined that the goodwill for both reporting units was not impaired.

In concluding that goodwill for the Company's Power Systems reporting unit was not impaired at December 31, 2015, the Company determined the fair value of the reporting unit using a discounted cash flow model ("DCF model"). The DCF model includes projections of future cash flows and assumptions in relation to future short-term and long-term growth rates and weighted average cost of capital ("WACC"). Inherent in the valuation at December 31, 2015, were key variables, including the WACC and the terminal growth rates of approximately 12% and 3%, respectively. With all other assumptions remaining constant, if either the WACC increased by 0.5% or the terminal growth rate decreased by 0.5%, the Company may have determined that proceeding to step 2 of the impairment analysis, as indicated in ASC 350-10, was necessary.

Consistent with previous interim reporting periods, the Company monitors qualitative and quantitative factors, including internal projections, periodic forecasts, and actual results of the reporting unit. Based upon this interim review, the Company does not believe that goodwill or its indefinite-lived intangible assets attributable to the Power Systems reporting unit are impaired.

d. Reclassification:

Certain comparative data in these financial statements may have been reclassified to conform to the current year's presentation.

e. Contingencies

The Company is from time to time involved in legal proceedings and other claims. The Company is required to assess the likelihood of any adverse judgments or outcomes to these matters, as well as potential ranges of probable losses. The Company has not made any material changes in the accounting methodology used to establish its self-insured liabilities during the past three fiscal years.

A determination of the amount of reserves required, if any, for any contingencies is made after careful analysis of each individual issue. The required reserves may change due to future developments in each matter or changes in approach, such as a change in the settlement strategy in dealing with any contingencies, which may result in higher net loss.

f. Certain relationships and related transactions

1. Related party loans: On February 9, 2000, one of the Company's former officers exercised 9,404 stock options. This former officer paid the exercise price of the stock options and certain taxes that the Company paid on his behalf by giving the Company a non-recourse promissory note due in 2025 in the amount of \$329,163, bearing annual interest at 1% over the then-current federal funds rate announced from time to time by the Wall Street Journal, secured by the shares of the Company's common stock acquired through the exercise of the options and certain compensation due to this officer upon termination. As of June 30, 2016 and December 31, 2015, the aggregate amount outstanding pursuant to this promissory note was \$482,461 and \$452,995, respectively. Additionally, there is a former employee with the same arrangement with an outstanding promissory note of \$455,059.

2. Consulting agreement with Sampen Corporation: The Company has a second amended and restated consulting agreement with Sampen Corporation that it executed in November 2014. Sampen is a New York corporation owned by members of the immediate family of one of the Company's officers, and this officer is an employee of both the Company and of Sampen. The original term of this consulting agreement was through December 31, 2017.

Pursuant to the terms of the Company's amended and restated agreement with Sampen, Sampen provided one of its employees to the Company for such employee to serve as the Company's President and Chief Executive Officer. The Company paid Sampen \$8,960 per month, plus an annual bonus, on a sliding scale, in an amount equal to a minimum of 25% of Sampen's annual base compensation then in effect if the results the Company actually attains for the year in question are 100% or more of the amount the Company budgeted at the beginning of the year, up to a maximum of 75% of Sampen's annual base compensation then in effect if the results the Company actually attains for the year in question are 110% or more of the amount the Company budgeted at the beginning of the year. The Company also paid Sampen, to cover the cost of the Company's use of Sampen's offices as an ancillary New York office and the attendant expenses and insurance costs, an amount equal to 16% of each monthly payment of base compensation.

The Company terminated the Sampen consulting agreement effective June 30, 2016.

3. Consulting agreement with Admiralty Partners: On February 3, 2016, the Company entered into a consulting agreement with Admiralty Partners, a business controlled by a member of the Board of Directors, for a period of three years. In exchange, the Company will pay an annual fee equal to the difference between total accrued compensation of the Board member and \$125,000. The agreement can be terminated by either party upon sufficient written notice.

g. Accounting for stock-based compensation:

For the three months ended June 30, 2016 and 2015, the compensation expense recorded related to restricted stock units and restricted shares was \$156,680 and \$175,721, respectively. For the six months ended June 30, 2016 and 2015 the compensation expense recorded related to restricted stock units and restricted shares was \$273,486 and \$334,595, respectively. The remaining total compensation cost related to share awards not yet recognized in the statements of comprehensive income as of June 30, 2016 was \$531,952. The weighted average period over which this compensation cost is expected to be recognized is approximately one and one-half years. Income tax expense was not impacted since the Company is in a net operating loss position.

Additionally, on February 2, 2016, the Company and an investor (the "Investor") entered into a Stock Purchase Agreement (the "Investment Agreement") providing for the sale to the Investor of a total of 1,500,000 shares of the Company's common stock at a price valued at \$1.99 per share. As the Investor was also given the right to nominate a member of the Board of Directors pursuant to the terms of the Investment Agreement, and the shares were issued at a discount to the then market price, this resulted in additional stock compensation expense of \$375,000 recorded in general and administrative expenses in the condensed consolidated statement of comprehensive income.

h. Anti-dilutive shares for EPS calculation

All contingent and non-vested restricted stock and non-vested restricted stock units have been excluded from the calculation of the basic earnings per common share because all such securities do not participate in losses for the periods presented and have been excluded from the calculation of diluted earnings per common share as the effect would be anti-dilutive. The Company has excluded any restricted stock or restricted stock units that will never vest under the current program. The total weighted average number of shares related to the outstanding options and warrants excluded from the calculations of basic and diluted net income per share for the three and six month periods ended June 30, 2016 and 2015 were 1,050,144 and 1,015,654, respectively.

NOTE 2: FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

The carrying value of short term assets and liabilities in the accompanying condensed consolidated balance sheets for cash and cash equivalents, restricted collateral deposits, trade receivables, and other assets, trade payables, accrued expenses, and other liabilities as of June 30, 2016 and December 31, 2015, approximate fair value because of the short maturity of these instruments. The carrying amounts of long term debt and contractual severance approximates the estimated fair values at June 30, 2016, based upon the Company's ability to acquire similar debt or fulfill similar obligations at similar maturities.

NOTE 3: INVENTORIES

Inventories are stated at the lower of cost or market value. Cost is determined using the average cost method or the FIFO method. The Company periodically evaluates the quantities on hand relative to current and historical selling prices and historical and projected sales volume. Based on these evaluations, provisions are made in each period to write down inventory to its net realizable value. Inventory write-offs are provided to cover risks arising from slow-moving items, technological obsolescence, excess inventories, and for market prices lower than cost.

Inventories at June 30, 2016 and December 31, 2015 were the following:

	<u>June 30, 2016</u>	<u>December 31, 2015</u>
	(Unaudited)	
Raw and packaging materials	\$ 8,432,003	\$ 8,184,476
Work in progress	612,885	760,585
Finished products	628,344	662,775
Total:	<u>\$ 9,673,232</u>	<u>\$ 9,607,836</u>

NOTE 4: SEGMENT INFORMATION

a. The Company and its subsidiaries operate primarily in three business segments and follow the requirements of FASB ASC 280-10. Additionally, the three segments are also treated by the Company as reporting units for goodwill impairment evaluation purposes under FASB ASC 350-20-35. The goodwill amounts associated with the Training and Simulation Division and the Power Systems Division was determined and valued when the specific businesses in the reportable segment were purchased.

Subsequent to December 31, 2015, the Company reassessed its reportable segments and established a third reportable segment herein referred to as the Flow Battery Division. The Flow Battery Division is a research and development operating segment with the purpose of developing an iron flow battery for power grid storage. The Flow Battery Division was previously accounted within the Power Systems Division. No goodwill has been allocated to this reportable segment as the relative fair value was determined to be zero.

The Company's reportable operating segments have been determined in accordance with the Company's internal management structure, which is organized based on operating activities. The accounting policies of the operating segments are the same as those used by the Company in the preparation of its annual financial statements. The Company evaluates performance based upon two primary factors, one is the segment's operating income or loss and the other is the segment's contribution to the Company's future strategic growth.

b. The following is information about reported segment revenues, income (losses) and total assets for the six and three months ended June 30, 2016 and 2015:

	Training and Simulation Division	Power Systems Division	Flow Battery Division	Corporate Expenses	Total Company
Six months ended June 30, 2016

(1) Includes depreciation of property and equipment and amortization expenses of intangible assets.

(2) Including, *inter alia*, sales and marketing, general and administrative.

(3) Out of those amounts, goodwill in the Company's Training and Simulation and Power Systems Divisions totaled \$24,435,641 and \$21,052,329, respectively, as of June 30, 2016 and \$24,435,641 and \$21,173,818, respectively, as of June 30, 2015. There was no goodwill as of either date in the Flow Battery Division.

NOTE 5: BANK FINANCING

The Company maintains credit facilities with JPMorgan Chase Bank, N.A. ("Chase"), whereby Chase provides (i) a \$15,000,000 revolving credit facility ("Revolver"), (ii) a \$10,000,000 Term Loan (the "Term Loan"), and (iii) a \$1,000,000 Mortgage Loan (the "Mortgage Loan" and, together with the Revolver and the Term Loan, the "Credit Facilities") in respect of certain property located in Ann Arbor, Michigan.

The maturity of the Revolver is March 11, 2021. The Revolver maintains an interest rate on a scale ranging from LIBOR plus 1.75% up to LIBOR plus 3.00%. The balance at June 30, 2016 and December 31, 2015 was \$4,326,083 and \$4,060,000, respectively.

The maturity of the Term Loan is March 11, 2021. The Term Loan maintains an interest rate on a scale ranging from LIBOR plus 2.0% up to LIBOR plus 3.25%. The repayment of the Term Loan will consist of 60 consecutive monthly payments of principal plus accrued interest based on annual principal reductions of 10% during the first year, 20% during the second through fourth years, and 30% during the fifth year. The balance at June 30, 2016 and December 31, 2015 was \$9,750,000 and \$15,316,046, respectively.

The maturity of the Mortgage Loan is March 11, 2021 and maintains an interest rate on a scale identical to the Term Loan. The monthly payments on the Mortgage Loan are \$5,555 in principal plus accrued interest, with a balloon payment due at the end of month 60. The balance at June 30, 2016 and December 31, 2015 was \$1,000,000 and \$902,914, respectively.

The Credit Facilities maintain certain reporting requirements, conditions precedent, affirmative covenants and financial covenants. Effective for the quarterly reporting period ended June 30, 2016, the Company is required to maintain certain financial covenants that include a Maximum Debt to EBITDA ratio of 3.00 to 1.00 and a Minimum Fixed Charge Coverage Ratio of 1.20 to 1.00. The Company was in compliance with its covenants as of June 30, 2016.

The Credit Facilities are secured by the Company's assets and the assets of the Company's subsidiaries.

NOTE 6: COMMON STOCK REPURCHASE PROGRAM

In February 2009, the Company's Board of Directors authorized the repurchase in the open market or in privately negotiated transactions of up to \$1.0 million of the Company's common stock. The repurchase program was extended to August 2016 and the authorization expanded to repurchase up to \$2.0 million of the Company's common stock. Through June 30, 2016, the Company repurchased an aggregate of 738,611 shares of its common stock for a total of \$1,084,060, net of commissions. There were no shares repurchased during the six or three months ended June 30, 2016. The program is subject to the discretion of the Company's management.

NOTE 7: SALE OF BUILDING

In March 2007, the Company purchased 16,700 square feet of space for the now-discontinued Armor Division in Auburn, Alabama for approximately \$1.1 million pursuant to a seller-financed secured purchase money mortgage. Half of the mortgage was payable over ten years in equal monthly installments based on a 20-year amortization of the full principal amount, and the remaining half was payable at the end of ten years in a balloon payment. The building was leased to a third party and was listed for sale with a local real estate agent. Additionally, the carrying value of this property was written down to zero as part of the 2011 Armor Division impairment. On February 9, 2015, the Company sold the building to the current tenant for \$925,000, resulting in a gain, net of fees, of \$895,000 which was recorded in general and administrative expenses on the condensed consolidated statement of comprehensive income. On that same date, the existing mortgage and existing building sub lease were terminated which ended any obligation the Company had for this property.

NOTE 8: IMPACT OF RECENTLY ISSUED ACCOUNTING STANDARDS

In August 2015, the Financial Accounting Standards Board ("FASB") issued ASU No. 2015-14, *Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date*. This ASU formally deferred the implementation date of ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)* from annual reporting periods beginning after December 15, 2016 to annual reporting periods beginning after December 15, 2017. The ASU completes the joint effort by the FASB and International Accounting Standards Board to improve financial reporting by creating similar revenue recognition guidance for U.S. GAAP and International Financial Reporting Standards. ASU 2014-09 applies to all companies that enter into contracts with customers to transfer goods or services. ASU 2014-09 has subsequently been enhanced and clarified for ease in the application of the standard. The Company is currently evaluating the requirements of ASU 2014-09 and has not yet determined its impact on the Company's consolidated financial statement or its adoption method.

[Table of Contents](#)

In February 2016, the FASB issued ASU No. 2016-02, *Leases*. The new standard establishes a right-of-use (ROU) model that requires a lessee to record a ROU asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement. The new standard is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. A modified retrospective transition approach is required for lessees for capital and operating leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements, with certain practical expedients available. The Company is currently evaluating the impact of its pending adoption of the new standard on its consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-09, *Compensation – Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting*. The new standard introduces targeted amendments intended to simplify the accounting for stock compensation. Among other things, the ASU requires all excess tax benefits and tax deficiencies to be recognized as income tax expense or benefit in the income statement. The amendments are effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. The Company is currently evaluating the impact of its pending adoption of the new standard on its consolidated financial statements.

For information about previous new accounting pronouncements and the potential impact on the Company's Consolidated Financial Statements, see Note 2 of the Notes to Consolidated Financial Statements in the Company's 2015 Form 10-K.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

This report contains forward-looking statements made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These statements involve inherent risks and uncertainties. When used in this discussion, the words "believes," "anticipated," "expects," "estimates" and similar expressions are intended to identify such forward-looking statements. Such statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those projected. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. We undertake no obligation to publicly release the result of any revisions to these forward-looking statements that may be made to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors including, but not limited to, those set forth elsewhere in this report. Please see "Risk Factors" in our Annual Report on Form 10-K and in our other filings with the Securities and Exchange Commission.

Electric Fuel® is a registered trademark and Arotech™, SWIPES™ and MILO Range™ are all trademarks of Arotech Corporation. All company and product names mentioned may be trademarks or registered trademarks of their respective holders. Unless the context requires otherwise, all references to us refer collectively to Arotech Corporation and its subsidiaries.

We make available through our internet website free of charge our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, amendments to such reports and other filings made by us with the SEC, as soon as practicable after we electronically file such reports and filings with the SEC. Our website address is www.arotech.com. The information contained in this website is not incorporated by reference in this report.

The following discussion and analysis should be read in conjunction with the interim financial statements and notes thereto appearing elsewhere in this Quarterly Report. We have rounded amounts reported here to the nearest thousand, unless such amounts are more than \$1.0 million, in which event we have rounded such amounts to the nearest hundred thousand.

Executive Summary

We are a defense and security products and services company, engaged in two business areas: interactive simulation for military, law enforcement and commercial markets; and batteries and charging systems for the military, commercial and medical markets. We are organized into two operational business units and one research and development business unit:

- We develop, manufacture and market advanced high-tech multimedia and interactive digital solutions for use-of-force training and driving training of military, law enforcement, security, emergency services and other personnel through our **Training and Simulation Division**.
- We provide advanced battery solutions, innovative energy management and power distribution technologies and world-class product design and manufacturing services for the aerospace, defense, law enforcement, homeland security markets, and we manufacture and sell lithium and Zinc-Air batteries for defense and security products and other military applications, through our **Power Systems Division**.
- We undertake innovative and leading edge research and development activities that are focused on developing an iron flow battery technology for power grid storage, through our **Flow Battery Division**.

Our results of operations below discuss only our operational units. Our research and development unit's activities appear only as part of the discussion of research and development expenses below.

Overview of Results of Operations

Through the first six months of 2016 as compared to 2015, our revenues increased \$1.3 million to \$47.2 million. This was as a result of revenue growth in our Power Systems Division. For the first six months of 2016, we reported a loss from operations of \$366,000 as compared to a loss from operations for the first six months of 2015 of \$1.6 million. Included in the loss from operations in 2016 is incremental stock compensation expense of \$375,000 related to a non-recurring issuance of common stock during the six months ended June 30, 2016.

Included in the 2015 loss from operations amount of \$1.6 million was a non-recurring expense reduction of \$895,000 related to the sale of a building used in our former Armor Division, partially offset by non-recurring costs of \$803,000 related to the transition and move of our former Alabama operations to UEC based in South Carolina.

Excluding these significant non-recurring items, our income from operations improved \$1.6 million during the first six months of 2016 as compared to 2015. This was primarily attributable to increased revenues and operating performance in our Power Systems Division.

Overview of Operating Performance and Backlog

Overall, our pre-tax loss for the six months ended June 30, 2016 was \$861,000 on revenues of \$47.2 million, compared to pre-tax loss of \$2.1 million on revenues of \$45.9 million during the six months ended June 30, 2015. Our overall backlog for the second quarter of 2016 totaled \$52.0 million, compared to \$58.7 million in the second quarter of 2015.

In our Training and Simulation Division, revenues for the six months ended June 30, 2016 were \$24.6 million, compared to \$26.3 million in the first six months of 2015. As of June 30, 2016, our backlog for our Training and Simulation Division totaled \$21.4 million, compared to \$31.6 million in the second quarter of 2015.

In our Power Systems Division, revenues for the six months ended June 30, 2016 were \$22.5 million, compared to \$19.5 million in the first six months of 2015. As of June 30, 2016, our backlog for our Power Systems Division totaled \$30.6 million, compared to \$27.1 million in the second quarter of 2015.

The table below details the percentage of total recognized revenue by type of arrangement for the six months ended June 30, 2016 and 2015:

Type of Revenue	Six months ended June 30,	
	2016	2015
Sale of products	94.7%	93.8%
Maintenance and support agreements	4.8%	5.5%
Long term research and development contracts	0.5%	0.7%
Total	100.0%	100.0%

Functional Currency

We consider the United States dollar to be the currency of the primary economic environment in which we and EFL operate and, therefore, both we and EFL have adopted and are using the United States dollar as our functional currency. Transactions and balances originally denominated in U.S. dollars are presented at the original amounts. Gains and losses arising from non-dollar transactions and balances are included in net income.

The majority of financial transactions of Epsilon are in New Israeli Shekels ("NIS") and a substantial portion of Epsilon's costs are incurred in NIS. Management believes that the NIS is the functional currency of Epsilon. Accordingly, the financial statements of Epsilon have been translated into U.S. dollars. All balance sheet accounts have been translated using the exchange rates in effect at the balance sheet date. Statement of comprehensive income amounts have been translated using the average exchange rate for the period. The resulting translation adjustments are reported as a component of accumulated other comprehensive loss in stockholders' equity.

Results of Operations

Three months ended June 30, 2016 compared to the three months ended June 30, 2015.

Revenues. Revenues for the three months ended June 30, 2016 totaled \$21.8 million, compared to \$21.6 million in the comparable period in 2015, an increase of \$136,000, or less than 1%. In the second quarter of 2016, revenues were \$11.3 million for the Training and Simulation Division as compared to \$12.9 million in the second quarter of 2015, a decrease of \$1.6 million, or 11.9%, due primarily to lower revenues in our Vehicle Simulation product area; and \$10.4 million for the Power Systems Division, as compared to \$8.8 million in the second quarter of 2015, an increase of \$1.6 million, or 19.1%, due primarily to higher revenues generated by our Power Systems Division.

Cost of revenues. Cost of revenues totaled \$14.8 million during the second quarter of 2016 as compared to \$15.4 million in the second quarter of 2015, a decrease of \$642,000, or 4.2%. Cost of revenues were \$6.6 million for the Training and Simulation Division as compared to \$7.6 million in the second quarter of 2015, a decrease of \$963,000, or 12.7%, due primarily to lower costs associated with lower revenues; and \$8.2 million for the Power Systems Division as compared to \$7.9 million in the second quarter of 2015, an increase of \$321,000, or 4.1%, due primarily to higher revenues generated by our Power Systems Division.

Research and development expenses. Research and development expenses for the second quarter of 2016 were \$1.0 million compared to \$1.2 million during the second quarter of 2015, a decrease of \$241,000, or 19.2%, due primarily to increased funding related to product development activities by our customers in our Power Systems Division.

Included in research and development are expenses related to the Flow Battery Division. Flow Battery Division expenses for the first six months of 2016 and 2015 were \$231,000 and \$147,000, respectively, net of Israeli Office of Chief Scientist grants of \$293,000 and \$36,000, respectively.

Selling and marketing expenses. Selling and marketing expenses for the second quarter of 2016 were \$1.8 million, compared to \$1.4 million in the second quarter of 2015, an increase of \$402,000, or 28.8%, due primarily to increased focus on selling and marketing activities in the U.S. operations of our Power Systems Division as well as increases in sales and marketing staff costs in our Training and Simulation Division.

General and administrative expenses. General and administrative expenses for the second quarter of 2016 were \$3.7 million, compared to \$4.5 million in the second quarter of 2015, a decrease of \$793,000, or 17.5%. Included in the second quarter of 2015 were non-recurring costs related to the transition and move of our former Alabama operations to UEC based in South Carolina of \$180,000.

Amortization of intangible assets. Amortization of intangible assets totaled \$699,000 in the second quarter of 2016, compared to \$705,000 in the second quarter of 2015, a decrease of \$6,000, or less than 1.0%.

Financial expense, net. Financial expense totaled \$204,000 in the second quarter of 2016, compared to financial expense of \$243,000 in the second quarter of 2015, a decrease of \$39,000, or 16.1%, due primarily to less interest expense incurred as a result of less debt outstanding in 2016 as compared to 2015.

Income taxes. We recorded \$369,000 in tax expense in the second quarter of 2016, compared to \$370,000 in tax expense in the second quarter of 2015, a decrease of less than 1.0%. This expense also includes "naked" credits ("naked" credits occur when deferred tax liabilities that are created by indefinite-lived assets, such as goodwill, that cannot be used as a source of taxable income to support the realization of deferred tax assets). This amount includes the required adjustment of taxes due to the deduction of goodwill "naked" credits for U.S. federal taxes, which totaled in 2016 and 2015 of \$229,000 and \$149,000, respectively.

Net loss. Due to the factors cited above, we went from a net loss of \$2.2 million in the second quarter of 2015 to a net loss of \$800,000 in the second quarter of 2016, a difference of \$1.4 million.

Six months ended June 30, 2016 compared to the six months ended June 30, 2015.

Revenues. Revenues for the six months ended June 30, 2016 totaled \$47.2 million, compared to \$45.9 million in the comparable period in 2015, an increase of \$1.3 million, or 2.9%. In the first six months of 2016, revenues were \$24.7 million for the Training and Simulation Division as compared to \$26.3 million in the first six months of 2015, a decrease of \$1.6 million, or 6.4%, due primarily to lower revenues in our Vehicle Simulation product area; and \$22.5 million for the Power Systems Division, as compared to \$19.5 million in the first six months of 2015, an increase of \$3.0 million, or 15.3%, due primarily to higher revenues generated by our Power Systems Division.

Cost of revenues. Cost of revenues totaled \$32.5 million during the first six months of 2016 as compared to \$32.8 million in the first six months of 2015, a decrease of \$254,000, or less than 1%, due primarily to lower revenues in our Training and Simulation Division offset by increased spending in our Power Systems Division resulting from higher revenues. Cost of revenues was \$14.6 million for the Training and Simulation Division as compared to \$16.6 million in the first six months of 2015, a decrease of \$2.0 million, or 12.3%, due primarily to lower costs associated with decreased revenues; and \$17.9 million for the Power Systems Division as compared to \$16.1 million in the first six months of 2015, an increase of \$1.8 million, or 11.1%, due primarily to higher revenues generated by our Power Systems Division.

Research and development expenses. Research and development expenses for the first six months of 2016 were \$2.1 million compared to \$2.3 million during the first six months of 2015, a decrease of \$237,000, or 10.1%, due primarily to an increase in funding related to product development activities by our customers in our Power Systems Division.

Included in research and development are expenses related to the Flow Battery Division. Flow Battery Division expenses for the first six months of 2016 and 2015 were \$492,000 and \$328,000, net of Israeli Office of Chief Scientist grants of \$428,000 and \$111,000, respectively.

Selling and marketing expenses. Selling and marketing expenses for the first six months of 2016 were \$3.5 million, compared to \$2.6 million in the first six months of 2015, an increase of \$832,000, or 31.7%, due primarily to increased focus on selling and marketing activities in the U.S. operations of our Power Systems Division as well as increases in sales and marketing staff costs in our Training and Simulation Division.

General and administrative expenses. General and administrative expenses for the first six months of 2016 were \$8.0 million, compared to \$8.2 million in the first six months of 2015, a decrease of \$154,000, or 1.9%. Included in the first six months of 2015 was a non-recurring reduction in expense of \$895,000 related to the sale of a building during the first quarter of 2015 partially offset by non-recurring costs of \$803,000 related to the transition and move of our former Alabama operations to UEC based in South Carolina.

Amortization of intangible assets. Amortization of intangible assets totaled \$1.5 million in the first six months of 2016, compared to \$1.6 million in the first six months of 2015, a decrease of \$100,000, or 6.4%, due primarily to higher amortization expense being recognized in 2015 pertaining to shorter lived intangible assets.

Financial expense, net. Financial expense totaled \$542,000 in the first six months of 2016, compared to financial expense of \$571,000 in the first six months of 2015, a decrease of \$29,000, or 5.1%, due primarily to less interest expense incurred as a result of less debt outstanding in 2016 as compared to 2015.

Income taxes. We recorded \$582,000 in tax expense in the first six months of 2016, compared to \$610,000 in tax expense in the first six months of 2015, a decrease of \$28,000, or 4.5% primarily due to having less tax being generated at the state and local level in 2016 as compared to 2015. This expense also includes "naked" credits ("naked" credits occur when deferred tax liabilities that are created by indefinite-lived assets, such as goodwill, that cannot be used as a source of taxable income to support the realization of deferred tax assets). This amount includes the required adjustment of taxes due to the deduction of goodwill "naked" credits for U.S. federal taxes, which totaled \$379,000 and \$299,000 in non-cash expenses in the first six months of 2016 and 2015, respectively.

Net loss. Due to the factors cited above, we went from a net loss of \$2.7 million in the first six months of 2015 to a net loss of \$1.4 million in the first six months of 2016, a difference of \$1.3 million.

Liquidity and Capital Resources

As of June 30, 2016, we had \$9.9 million in cash and \$65,000 in restricted collateral deposits, as compared to December 31, 2015, when we had \$10.6 million in cash and \$90,000 in restricted collateral deposits. We also had \$10.7 million in available, unused bank lines of credit with our main bank as of June 30, 2016, under a \$15.0 million credit facility.

The Company maintains credit facilities with JPMorgan Chase Bank, N.A. ("Chase"), whereby Chase provides (i) a \$15,000,000 revolving credit facility ("Revolver"), (ii) a \$10,000,000 Term Loan (the "Term Loan"), and (iii) a \$1,000,000 Mortgage Loan (the "Mortgage Loan" and, together with the Revolver and the Term Loan, the "Credit Facilities") in respect of certain property located in Ann Arbor, Michigan.

The maturity of the Revolver is March 11, 2021. The Revolver maintains an interest rate on a scale ranging from LIBOR plus 1.75% up to LIBOR plus 3.00%.

The maturity of the Term Loan is March 11, 2021. The Term Loan maintains an interest rate on a scale ranging from LIBOR plus 2.0% up to LIBOR plus 3.25%. The repayment of the Term Loan will consist of 60 consecutive monthly payments of principal plus accrued interest based on annual principal reductions of 10% during the first year, 20% during the second through fourth years, and 30% during the fifth year.

The maturity of the Mortgage Loan is March 11, 2021 and maintains an interest rate on a scale identical to the Term Loan. The monthly payments on the Mortgage Loan are \$5,555 in principal plus accrued interest, with a balloon payment due at the end of month 60.

The Credit Facilities maintain certain reporting requirements, conditions precedent, affirmative covenants and financial covenants. Effective for the quarterly reporting period ended June 30, 2016, the Company is required to maintain certain financial covenants that include a Maximum Debt to EBITDA ratio of 3.00 to 1.00 and a Minimum Fixed Charge Coverage Ratio of 1.20 to 1.00. The Company was in compliance with its covenants as of June 30, 2016.

The Credit Facilities are secured by the Company's assets and the assets of the Company's subsidiaries.

We used available funds in the six months ended June 30, 2016 primarily to improve our capital structure. We received \$3.0 million through the issuance of stock and paid \$5.0 million of long-term debt during the six months ended June 30, 2016.

Net cash provided by operating activities for the six months ended June 30, 2016 was \$2.3 million. Net cash used in operating activities for the six months ended June 30, 2015 was \$3.2 million, representing a net change year over year of \$5.5 million. This difference was due primarily to improvements in operational results as well as working capital performance.

Net cash used in investing activities for the six months ended June 30, 2016 was \$806,000. Net cash used in investing activities for the six months ended June 30, 2015 was \$212,000, representing a net change year over year increase of \$594,000. This difference was due primarily to the sale of the building of our former Armor Division during the six months ended June 30, 2015.

Net cash used in financing activities for the six months ended June 30, 2016 was \$2.0 million. Net cash provided by financing activities for the six months ended June 30, 2015 was \$4.0 million, representing a year over year net change of \$6.0 million. This change is attributable to a net decrease in cash used to pay long term debt and short term bank credit partially offset by proceeds from issuance of long term debt and common stock.

As of June 30, 2016, we had approximately \$4.3 million in short-term bank debt under our credit facility and \$11.1 million in long-term loans outstanding; which included \$1.4 million in current debt and \$9.7 million in long term debt. This is in comparison to December 31, 2015, when we had \$4.1 million in short-term bank debt under our credit facility and \$16.2 million in long-term debt outstanding, which included \$4.3 million in current debt and \$11.9 million in long term debt.

Subject to all of the reservations regarding "forward-looking statements" set forth above, we believe that our present cash position, anticipated cash flows from operations and lines of credit should be sufficient to satisfy our current estimated cash requirements through the next twelve months. In this connection, we note that from time to time our working capital needs are partially dependent on our subsidiaries' lines of credit.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Interest Rate Risk

It is our policy not to enter into interest rate derivative financial instruments, except for hedging of foreign currency exposures discussed below. We do not currently have any significant interest rate exposure.

Foreign Currency Exchange Rate Risk

We conduct our business primarily in U.S. dollars. However, we operate one subsidiary based in Israel in NIS. This subsidiary conducts trading activities, including sales, purchasing, and research and development activities, in NIS. Since a significant part of our sales and expenses are denominated in U.S. dollars, we have historically experienced only minor foreign exchange gains and losses to date, and do not expect to incur significant gains and losses in 2016.

However, given that some of our agreements are denominated in foreign currencies, this could have an adverse effect on the revenues that we incur in foreign currencies.

We do not hold or issue derivative financial instruments for trading or speculative purposes.

ITEM 4. CONTROLS AND PROCEDURES.

As of the end of the period covered by this report, an evaluation was carried out by the Company's management, with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that these disclosure controls and procedures were effective as of the end of the period covered by this report. In addition, no change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) occurred during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II

ITEM 6. EXHIBITS.

The following documents are filed as exhibits to this report:

Exhibit Number	Description
31.1	Certification of Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
31.2	Certification of Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
32.1	Certification of Chief Executive Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
32.2	Certification of Chief Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
101.INS	XBRL Instance Document
101.SCH	XBRL Taxonomy Extension Schema Document
101.CAL	XBRL Taxonomy Extension Calculation Linkbase Document
101.DEF	XBRL Taxonomy Extension Definition Linkbase Document
101.LAB	XBRL Taxonomy Extension Label Linkbase Document
101.PRE	XBRL Taxonomy Extension Presentation Linkbase Document

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

CERTIFICATION

I, Steven Esses, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Arotech Corporation;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and we have:
 - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures as of the end of the period covered by this quarterly report based on such evaluation; and
 - (d) disclosed in this quarterly report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):
 - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.
